

## **Self Directed Learning**

### **1. Self Exploration:**

#### **Objectives:**

To learn about myself.  
To learn about my weakness and strengths.  
To observe my behaviour during working on project

#### **Note:**

As of now I am very irresponsible person during working on project. My communication is very bad and speak lie, pass wrong information to coworkers. I am very possessive about my project. I like to be alone. I am bad to work in team. I am not good leader. I am jumping around different projects and people.

I am very passionate about my project. I always be confident about my ideas and project. I always stick on my ideas.

To learn how can I overcome my weakness.  
How to clean my inner self.  
How to BE real ME,

### **2. Why-What and How - Education**

#### **Objectives:**

##### **Why - Education**

What was the need of education? why we need education?  
What was the idea/philosophy behind education?

##### **What - Education**

What is differentiation between knowledge and education?  
elements of education  
different element in schooling and higher education
